Learning Objectives

- Course Overview and Introduction
- Definition and History of Building Commissioning
- Why is building commissioning needed?
- Commissioning Process Overview
- CP roles, responsibilities, and professional qualifications
- Cost and benefits of System Commissioning
- Commissioning Team Role & Responsibilities
- Summary and Resources
- CxCP Exam Sample Question

SUMMARY

- The program aims to equip participants with the necessary information, principles, and materials for effective commissioning.
- The CxCP certification validates the ability to lead, plan, organize, and manage a commissioning team in the execution of commissioning procedures for both new and existing facilities.
- The CxCP validates expertise in commissioning project management, commissioning documentation generation, training activity management, warranty phase activity completion, and ongoing and existing commissioning.
- A CxCP creates and manages the technical commissioning process, accessing and evaluating building systems for technical commissioning performance.

SUMMARY +

- The CxCP serves as the owner's advocate in managing the commissioning process for new building systems.
- Responsibilities include guiding the commissioning process, leading the commissioning team, planning and implementing commissioning process activities, developing and maintaining Commissioning Process documents, and acting as the owner's representative.
- The course offers a comprehensive exposition of the commissioning process, including its historical background, significance, certification requirements, financial implications, advantages, and illustrative sample examination questions.

WELCOME TO BEYOND SMART CITIES

Our purpose is to create a sustainable future by offering high-performance, value-added solutions to environmental, mobility, and digital concerns, with the goal of benefiting both current and future generations by restoring community value.

“Any fool can make things bigger, more complex, and more violent. It takes a touch of genius – and a lot of courage – to move in the opposite direction.”
- Albert Einstein
