DEFINITIONS OF COMMISSIONING

QUALITY ASSURANCE PROGRAMME

"The Commissioning Process is a quality-oriented process for achieving, verifying, and documenting that the performance of facilities, systems, and assemblies meets defined objectives and criteria." ASHRAE Guideline 0

"...a systematic, documented, and collaborative process including inspection, testing, and training."

"...conducted to confirm that a building and its component system meet the requirements of the occupants and conform to the design intent."

"...a quality assurance procedure applied to building construction throughout the entire project..."
