BEYOND SMART CITIES

MODULE 7

Summary and Resources

KRISHNAJI PAWAR - CEO & FOUNDER

LEED AP(BD+C),GSAS CGP,GCP,ISO 14001

WWW.BEYONDSMARTCITIES.IN

Learning Objectives

- Course Overview and Introduction
- Definition and History of Building Commissioning
- Why is building commissioning needed?
- Building Commissioning Process Overview
- Professional Certification in Commissioning
- Cost and benefits of building commissioning
- Summary and Resources

BEYOND SMART CITIES

SUMMARY

- Provides knowledge, principles, direction, and materials to ensure the effective execution and supervision of commissioning.
- Retains accreditation as an Associate Commissioning Professional (ACP) to keep current in the construction commissioning field.
- Validates the ability to lead, plan, organize, and manage a commissioning team during the commissioning process.

SUMMARY +

- Demonstrates understanding of commissioning project management, documentation development, training activity management, warranty phase activity completion, and ongoing and current commissioning.
- Assists in ensuring that energy-consuming building systems run at peak efficiency and fulfill the owner's performance standards.
- Responsibilities include overseeing the Commissioning Process, directing the Commissioning Team, planning and carrying out Commissioning Process activities, creating and maintaining Commissioning Process records, and serving as the owner's representative.
- Provides a thorough explanation of the Commissioning process, including its historical context, relevance, certification requirements, financial consequences, benefits, and sample exam questions.

WELCOME TO BEYOND SMART CITIES

Our purpose is to create a sustainable future by offering high-performance, value-added solutions to environmental, mobility, and digital concerns, with the goal of benefiting both current and future generations by restoring community value.

“Any fool can make things bigger, more complex, and more violent. It takes a touch of genius – and a lot of courage – to move in the opposite direction.”
- Albert Einstein
