- Summary and Resources

BEYOND SMART CITIES

# SUMMARY

- The program equips individuals with knowledge, principles, guidance, and resources for effective building commissioning.
- Certification in Building Commissioning Professional (CBCP) confirms competence in overseeing, strategizing, coordinating, and supervising a commissioning team.
- Key domains include overseeing commissioning projects, creating commissioning documentation, supervising training initiatives, executing warranty phase tasks, and conducting continuous commissioning activities.
- Building commissioning professionals ensure new buildings meet operational and design requirements of their building and mechanical systems.

# SUMMARY +

- Responsibilities include guiding the Commissioning Process, leading the Commissioning Team, planning and implementing Commissioning Process activities, developing and maintaining Commissioning Process documents, and acting as the owner's representative.
- Key Takeaways include the history and definition of building commissioning, the necessity of building commissioning, professional certification in building commissioning, cost and benefits of building commissioning, and sample questions for the Building Commissioning Professional exam.

# WELCOME TO BEYOND SMART CITIES

Our purpose is to create a sustainable future by offering high-performance, value-added solutions to environmental, mobility, and digital concerns, with the goal of benefiting both current and future generations by restoring community value.

“Any fool can make things bigger, more complex, and more violent. It takes a touch of genius – and a lot of courage – to move in the opposite direction.”
- Albert Einstein
