WHAT IS ISO 14001:2015 – EMS?

ISO 14001 is the international standard that specifies requirements for an effective environmental management system (EMS). It provides a framework that an organization can follow, rather than establishing environmental performance requirements.

Part of the ISO 14000 family of standards on environmental management, ISO 14001 is a voluntary standard that organizations can certify to...

The International Organization for Standardization (ISO) defines an environmental management system as "part of the management system used to manage environmental aspects, fulfill compliance obligations, and address risks and opportunities." The framework in the ISO 14001 standard can be used within a plan-do-check-act (PDCA) approach to continuous improvement.

ISO 14001 EMS FRAMEWORK

At the highest level, ISO 14001:2015 covers the following topics with regard to environmental management systems:

- ✓Context of the organization
- ✓Leadership
- ✓Planning
- ✓Support
- ✓Operation
- ✓Performance evaluation
- ✓Improvement

BENEFITS OF ISO 14001:2015?

Using ISO 14001:2015 has many benefits for organizations with environmental management systems. Organizations and companies find that using the standard helps them:

- ✓Improve resource efficiency
- ✓Reduce waste
- ✓Drive down costs
- ✓Provide assurance that environmental impact is being measured
- ✓Gain competitive advantage in supply chain design
- ✓Increase new business opportunities
- ✓Meet legal obligations
- ✓Increase stakeholder and customer trust
- ✓Improve overall environmental impact
- ✓Manage environmental obligations with consistency
