CITY CLIMATE PLANNER CERTIFICATE PROGRAM

To help build capacity in local-level climate planning, the World Bank and global partners developed the City Climate Planner (CCP) Certificate Program, a training and professional certificate program that aims to increase the global talent base of climate planning professionals.

The first certificate to be developed is focused on GHG emission inventories, as they are seen as a key building block in development of quality climate action plans. The result is a training on the latest internationally accepted standard for GHG inventories, a rigorous certificate exam that allows candidates to demonstrate mastery of the content and access to professional networks that support this work

In the future, additional content areas and certificates that address other components of climate action planning will be created.
