BEYOND SMART CITIES

LEED AP WITH SPECIALTY OVERVIEW

A LEED AP with a specialty credential identifies individuals with advanced green building knowledge and expertise in a specific LEED rating system, requiring previous experience on a LEED-registered project.

Learning Objectives

- Introduction
- Knowing the Process of LEED Credentialing
- Basic Concepts of Sustainable Design
- Organizational Fundamentals
- LEED Green Building Rating System
- Reasons to Become LEED Accredited
- Getting a LEED AP with Specialty Credential
- Summary and Resources
- LEED AP Quiz: Test Your Knowledge!

BEYOND SMART CITIES

INTRODUCTION

- LEED standards are studied by professionals for an accreditation exam.
- Passing the exam results in a LEED AP with Specialty credential.
- LEED Accredited Professionals enhance careers in construction, design, operations, and facility management.
- Distinguishes advanced green building knowledge and LEED rating system expertise.
- Requires previous experience on a LEED-registered project.
- Exams measure green building knowledge, specific LEED rating system, and certification process.
- Ideal for individuals actively working on green building and LEED projects.

WHICH LEED AP SPECIALTY IS RIGHT FOR YOU?

BEYOND SMART CITIES

LEED AP Building Design + Construction (LEED AP BD+C)

Suits professionals with expertise in the design and construction phases of green buildings, serving the commercial, residential, education and healthcare sectors.

LEED AP Operations + Maintenance (LEED AP O+M)

Distinguishes professionals implementing sustainable practices, improving performance, heightening efficiency and reducing environmental impact in existing buildings through enhanced operations and maintenance.

LEED AP Interior Design + Construction (LEED AP ID+C)

Serves participants in the design, construction and improvement of commercial interiors and tenant spaces that offer a healthy, sustainable and productive work environment.

LEED AP Neighborhood Development (LEED AP ND)

Applies to individuals participating in the planning, design and development of walkable, neighborhoods and communities.

LEED AP Homes

Suited for those involved in the design and construction of healthy, durable homes that use fewer resources and produce less waste.

LEED AP WITH SPECIALTY EXAM

- Contains 100 multiple-choice questions delivered in a 2-hour period.
- Each question has one correct answer option.
- Only available for current LEED Green Associate credential holders.
- Non-LEED Green Associate holders can register for a combined LEED Green Associate/LEED AP with specialty exam.
- Combined exam is not available in all languages and only at Prometric Test Centers.
- If combined exam isn't available, take the two separately.
- For more information, see Exam Results section.
- The All LEED professional exams have a score range of 125-200, with a 170 or higher required to pass, and for the LEED AP combined exams, a 170 or higher.
